EPA,
William K. Reilly.

Greetings,

I was very impressed with articles on the new product of multi-benefits, HiTEC 3000 fuel additives for vehicles. The benefits for helping air pollution and increasing fuel economy seems obvious. The Canadian experience with it in the 1980's seems conclusive. I hope your approval for its use will be forthcoming. (Please send any strong negative facts to if you have them and are leaning that way)

Sincerely,

A handwritten signature in cursive script, reading 'Peter R. Maunder', is written above the printed name.
